workplaces, retail and public spaces) of inner-urban locations.

City & Urban Regeneration, Development & Renewal Projects

Urban regeneration is the attempt to reverse that decline by both improving the physical structure, and, more importantly and elusively, the economy of those areas.

very wide ranging term that can apply to a broad spectrum of situations. It essentially covers the reconstruction of built up areas, especially where there is evidence of urban decay. Urban regeneration began in the late 19 th century and went through a phase of considerable acceleration in the 1940s. It's something
