Make Links Click with Users Without Saying "Click Here" The next time you consider using the words "click" or "here" for links, remember the effect it will have on the experience. The challenge is to make your links communicate "click here" without actually saying "click here," and there are many ways to do this.

**Why Your Links Should Never Say "Click Here" — Smashing ...**  
Click here. Click here. This list is useless to Colleen, but instead of merely reading back a couple of sentences to establish context, she's going to have to listen to the entire page. "Click here" forces everyone to work harder to establish the context of the link, but it's especially hard on the visually impaired.

**Why "click here" is a terrible link, and what to write instead**  
To download W3C's editor/browser Amaya, click here. or: To download Amaya, go to the Amaya Website and get the necessary software. Both of these sentences divulge too much of the mechanics of getting the Amaya software. If you want to call your reader to action, use something like: Get Amaya!
