**Hitachi SJ100 Series Inverter Instruction Manual**  
The lathe is in the off position. I have the small remote for the vfd that controls the functions. I press the start or run button. I wait until the little led ramps up to 60 cycles. Once that happens, I just power on the lathe. When I first got the vfd, I heard that you could program the vfd to change speeds on the lathe while it was running.
