Paper Cutter - business/commercial - by owner - sale

A rotary cutter has a circular blade mounted in its cutting head and trims paper in both directions by the back and forth movements of its rolling blade. This type of paper cutter cuts with higher precision and leaves the edges of your documents burr free, which is ideal for slicing single sheets of thick paper and trimming card stock.

Paper-Cutting Shears | McMaster-Carr

Manual Stack Paper Cutters require an operator to physically lift and press down on a lever. The lever works on a spring mechanism, thus reducing the amount of actual force required. The clamping system and back gauge are both manually adjustable for precise cuts of up to 750 sheets of paper or cardstock at once.

Stack Paper Cutters: Heavy Duty Stack Paper Cutters | Semi ...

Most paper trimmers use a guillotine-style blade that cuts through items when a swift, downward motion is applied to the handle. Safety is prioritized with a paper cutter that uses a tension spring to keep the handle arm in any position, preventing it from falling, plus a safety guard that covers the sharp blade when it's not in use.
