With the ERGOPOWER series ZF offers a whole range of transmissions which have been specially conceived for the requirements of lift trucks and other materials transport vehicles.

## **Powershift Transmission > ERGOPOWER - ZF**

The automatic powershift transmission ERGOPOWER has been optimized for application in wheel loaders. It offers five instead of the standard four gears thus increasing the driver's flexibility and simplifying the handling. Due to vertical arrangement of spur gear ratios, the axle differential can be integrated into the housing.
